

Aaron Porter.

Education

Kendall College of Art and Design August 2013 - Present

I am currently pursuing a bachelor's degree in Collaborative Design with a Minor in Digital Media. I received a complete scholarship for my achievements in design and film and will graduate in the fall of 2016.

Work

Mainstay Collective August 2013 - Present

I cofounded and now function as a core producer at Mainstay, a creative collective that consists of artists, designers, and filmmakers. We partner with companies, organizations, and individuals and help to build a creative team for their project.

S2 Games May 2013 - August 2013

As an intern in S2's video broadcasting and production team, I created 3D animations, commercials, and promos that livestreamed to tens of thousands of viewers and gained hundreds of thousands of online views.

Rhino Media September 2012 - January 2013

As a video production intern with Rhino Media, I was responsible for contributing to all portions of the video production process. I helped with pre-production, I was a grip on set, and directed the full post-production process on specific projects. I keep a healthy relationship with the studio and continue to consult and freelance with them.

Freelance 2011 - Present

I design and develop web experiences for clients, while managing and organizing all aspects of the web development process.
